📍 6<sup>th</sup> of October, E g y p t

Dear Hiring Team,

I trust this message finds you well. My name is Ahmed Sherif, and I am eager to express my interest in this position (Junior Embedded Linux Developer) provided by ElAraby Group, as advertised in a recent LinkedIn post.

I hold a bachelor's degree in Mechatronics engineering from Mansoura University and have recently completed my internship in ITI as an Embedded System intern. My academic journey has equipped me with a strong foundation in problem- solving and critical thinking.

Throughout my education, I have gained practical experience in software development, particularly in C++, C programming languages and Microcontroller interfacing concepts. My Internship in ITI honed my technical skills, soft skills and provided me with valuable insights into engineering practices. Also, ITI was the my start in knowing the basics of Embedded Linux and dealing with Raspberry PI. I have managed successfully to apply these skills in various projects.

What captivates me about the prospect of joining ElAraby is the opportunity to contribute my technical expertise to a company known for its innovative contribution. I am confident that my academic background, combined with my proficiency in C++, C and MC interfacing, positions me as a valuable candidate for this position.

I have uploaded my CV as a PDF, providing detailed information about my education, skills, and relevant experiences. For a more comprehensive view of my qualifications, I invite you to review my LinkedIn profile which is mentioned below at the end of the letter. I am enthusiastic about the possibility of discussing how my background aligns with the needs of your position in greater detail. Thank you for considering my application.

I look forward to the potential opportunity for an interview to explore my skills.

Best regards,

Ahmed Sherif
